Skills

- I learned to code in the following programming languages:
    - HTML
    - CSS
    - Java
    - C++
    - SQL
- Proficient in using Microsoft Word, Powerpoint and Excel
- Worked a lot with Visual Studios, Brackets, Netbeans and Notepad++
- Worked on several group projects and presentations for my programming classes

Experience

May 2018 - PRESENT

Kroger Marketplace, Little Rock, AR – *Clicklist Associate*

- Went around the store to help customers fill orders that they wanted online as well as delivered their orders to them curbside.
- Worked a lot on their computer to figure out problems in their system and make sure every order that was delivered was processed correctly in the system.
- I learned to keep up a consistent work ethic and work effectively within a chaotic environment.

Education

August 2015 -present

University of Arkansas – Little Rock, AR – *Bachelor of Information Science*
